ABOUT SUE LONDON

"I read people & pets alive and those while crossing and crossed over. I do this by seeing their photo and they bring me their messages. I experience what they feel as they are crossing over."

Two near-death experiences gave Sue London a connection to the "other side," becoming a conduit for peace and healing. During her second experience, she was urged by her Grandpa Buck and Jesus to assist others in healing.

Raised alone, Sue found companionship with animals. After being revived, she discovered dormant abilities, allowing her to channel messages from people and animals alike. Her services include acting as a Hospice Pet Doula, hosting podcasts, motivational speaking, coaching, and authorship.

Acknowledged as Top Hospice Pet Doula & Healer of 2023 and recipient of the Lifetime Achievement Award 2024, Sue's dedication to pet hospice care is remarkable. Her company, 7 Dogs Media, honors her seven dogs that passed away. She offers comfort during challenging times such as when pets or loved ones cross over.

Sue received the Business Mastery Award from John Assaraf in 2007 for establishing a business that significantly impacts lives. She has worked closely with Jack Canfield, even leading his BREAKTHROUGH TO SUCCESS event in 2022. Despite her busy schedule, she continues to provide empowering insights.

As an author, Sue has written books like "For The Love Of Pets Who Help Us Heal" and "Soar Above It: Overcoming Adversities In Life," inspiring resilience and healing. Her book "Rocky's Trip To The Hospital" is based on her personal experiences. "Rocky's Positive Thoughts Coloring Book," another creation, helps children facing challenges find hope and inspiration.

Her success, she believes, comes from perseverance, compassion, and mentorship. In the future, Sue plans to write more books, create online courses, and continue providing hope and healing to those experiencing loss.

SUE LONDON SERVICES AND BOOKS

SELECT CLIENT TESTIMONIALS

"My little 17 year old dog India has cataracts that rendered her almost completely blind. The vet told us a couple of years ago that India could only see shadows and she would eventually be completely blind. This was devastating news as India's greatest joy was chasing balls endlessly. All of that came to a halt as she became inactive due to her vision loss. Even going for walks has been difficult as she gets startled by sun and shade, and stumbles and falls. I am beyond grateful for meeting Sue London!! Sue's healing has miraculously restored some of India's vision. Just yesterday after seeing Sue, India confidently walked through the crowd on a sunny day without stuttering her steps and could see where she was going. Today India actually chased a ball I tossed across the floor. She saw the ball for the first time in years! I'm beyond grateful for Sue's healing abilities for my little girl. India and I will continue this healing journey with you. So much gratitude for you!!

Thank you so much for giving of yourself Sue." - **Tina & India**

"I love, love, love the drawing of little Cosmo and the message he gave to Sue London for me to enjoy I laughed out loud when I first read it. It is so right on the money. Cosmo is a little character, and his personality was captured in the drawing and in his communication! Thank you [Sue London] so much for this precious gift."

- **Janet Nestor, Author, Mental Health Therapist, and Diplomat in Energy Psychology**

"Oh my gosh! Have you ever wondered what your fur baby is thinking, or what they want you to know? My friend Sue London does pet readings for our furry friends both here and on the other side. You send a photo to her, and she connects with them. She starts to sketch them and the readings come through. The validations and insights you receive are off the charts."

- **Brenda Pearce, Author, TV Show Host of Empowered Living on The Dream Visions 7 Media Network**

"There are no words Sue to express the gratitude I feel to you for allowing Greg, Punky and I to connect on a deeply spiritual level in the minutes before Punky's crossing ...it is a gift to all of us that I could not imagine ever expecting."

- **Gratitude and love from my family, Mary, Greg and Punky**

"My sweet boy Louie was with me for over 16 years. I connected with Sue to help provide Reiki for Louie & I during his decline for the past couple of weeks and through the entire process of helping my sweet boy across the rainbow bridge. It was truly a very peaceful experience being by his side, less stressful than I could image. It was the hardest thing I've ever done but Sue's Reiki healing helped immensely. Thank you Sue you are an angel!"

- **Dean Duet, CPTD-KA Professional Dog Trainer, Double D Dog Training "Dog Dude"**

"Sue helped us with our Tysen's crossing. Recently Max crossed over. Being blessed with love and support by someone who understands what the animals need at this time gave me peace and knowing of how I could have been of service to my beloved boy. Max transitioned so peacefully and it was with dignity. I was at ease myself and to experience what I was dreading in such a healing process, I recommend everyone have Sue guide them. Sue sent me a message saying that she heard angels and it was at the same moment Max transitioned." - **Melissa**
