About Sue London Hospice Pet Doula & Animal Communicator

Sue London is a globally-renowned, respected, Hospice Pet Doula, Animal Communicator, and Reiki Master who is helping pets live well and die with respect and dignity, while assisting in the transition for the pet and owner.

Sue supports and helps pet owners reach the right decisions for their pets during this difficult and stressful time through her guided pet messages. This makes the loss of a special pet less traumatic.

Sue has dedicated her life to helping others, to deeply connect with their own true self and with their animals. Having survived two near-death experiences that gave her direct witness to the "other side". Sue has served as a bridge between our two worlds and has used her experience to help bring peace and healing to people and their pets.

The messages she is able to channel through the hearts and souls of pets, have helped to provide closure, heal relationships and bring peace and understanding that may never have been possible without this empathic bridge. Sue can truly understand what others are going through, and authentically connect with them and their pets, to help them find peace through her life-changing healing methods.

"Sue was able to connect with what was going on with Daisy's pain, her mental status, thoughts, fears and emotions. It allowed me clarity to let Daisy know that I would not let her suffer, based on her declining physical condition. What Sue saw was confirmed by x-ray. It helped me to prepare, and helped Daisy pass in peace. Thank you so very much for your love and gift to help my fur baby pass in peace."

"I connected with Sue to help provide Reiki for Louie & I during his decline for the past couple of weeks and through the entire process of helping my sweet boy across the rainbow bridge. It was truly a very peaceful experience being by his side, less stressful than I could image. Sue's Reiki healing helped immensely. Thank you Sue you are an angel!"

"Sue is truly my guardian angel. She brought me back from the depths of despair when I lost my beloved Blue. I couldn't be more grateful for her love and wondrous energy. I am on a new, healthy and happy path in life thanks to Sue."

"Sue helped us with Tysen's crossing and recently with Max's crossing. Being blessed with love and support by someone who understands what the animals need at this time gave me peace and knowing of how I could be of service to my beloved boy. Max transitioned so peacefully and with dignity. I was at ease myself. Sue sent me a message saying that she heard angels and it was at the same moment Max transitioned. I recommend everyone have Sue guide them."

Melissa

"There are no words Sue to express the gratitude I feel to you for allowing Greg, Punky and I to connect on a deeply spiritual level in the minutes before her crossing ...it is a gift to all of us that I could not imagine ever expecting."
